

FLEXA

CABINETS WITH DRAWERS START SERIES

**Drawer load-bearing
capacity from 50 to 70
kg**

Perforated drawers

Ball bearings

Key-operated closure

FLEXA

LOCK

The cylinder lock is connected via a square rod to the rear locking unit consisting of a rotating element in plastic material and a locking rod in sheet steel. Turning the key activates the cam system of the locking unit which rotates the rear rod (A).

3-EDGE TOP SHELF COATED WITH PVC

The PVC-coated 3-edge top protects the upper part of the cabinet and, thanks to the raised edges, prevents the material placed on it from falling off.

FREELY ORGANISABLE

The drawer can be internally divided by means of **partition drawers for small parts and longitudinal and transversal metal dividers**. The latter are fixed to the perforated base of the drawer by means of screws to prevent spillage of the stored material.

PERFORATED DRAWERS

ORGANISATION DOWN TO THE MILLIMETRE
Holes and slots on the drawers make it easier to add internal dividers for optimally arranging tools and materials.

FULL EXTENSION
100%

LOAD CAPACITY
50 / 70 kg

COLOURS

The Flexa cabinet is available in 3 colour combinations.
